HOW DO YOU WANT YOUR TUBING KIT?

We cut tubing more cost effective with our automatic cutting machine

One type of tubing kit:

MOBILE PHASE BOTTLE KITS

With a production of 15.000 Mobile Phase Bottle Kits per annum we believe we can offer you a high quality concept used by leading LC producers and consisting of 4 sets of FEP tubings with 10 µm SS mobile phase filter (other porosities upon request) and Upchurch original Super Flangeless Fittings + mobile phase bottle caps + colored tubing markers.

Every tubing is color coded and so is the nut. Kits are mounted and ready to be used – individually packed into PE bags. Standard length is 1,4 M – other lengths upon request.
